

Current situation in Afghanistan and experience of deported refugees – information and discussion

12. Dec. 2019, 19:30 – 22:00h, Curio-Haus, Rothenbaumchaussee 15

Information and discussion, organized by the “Beratungsstellenprojekt“ of the Refugee Council Hamburg e.V. in cooperation with the GEW Hamburg and the Refugee Law Clinic Hamburg

Despite of warnings of human rights organisations, such as Pro Asyl und UNHCR, the German Government does not stop deportations to Afghanistan. We want to inform about the political correlations and the situation of the people in Afghanistan, especially about refugees deported to Afghanistan. Afterwards we would like to talk about the steps that need to be taken in order to guarantee security and protection for refugees from Afghanistan.
